I am a public health researcher turned software developer. My previous career in public health taught me to persevere in tough situations, be detail-oriented, and analytical while my positive demeanor and passionate nature help to energize the people that I work with. Inquisitive by nature, I am excited to grow and learn within the field of technology and I look forward to connecting with other like-minded developers.

## EXPERIENCE

**GENERAL ASSEMBLY** · New York, NY · 2020

**SOFTWARE ENGINEERING IMMERSIVE | ENGINEERING FELLOW**

Learned full-stack web development in a 12-week full-time training program that exposed me to new languages and frameworks.

### KEY ACCOMPLISHMENTS:

- Created NutriMate, a nutritional information web application and food journal. Created with HTML, CSS, Vanilla JavaScript, Nutritionix API, and hosted on Surge.
- Created BetterDoc, a web application that details provider information to the user based on name, location, insurances accepted, and provider specialty. Created with React Router, CSS, Better Doctor API, and hosted on Netlify.
- Created The +Side, a full-stack positivity blog that alternates between a personalized gratitude post and good news articles. Created with full CRUD and full authentication. Back-end uses Ruby on Rails and is deployed on Heroku. Front-end uses React Router and is deployed on Surge.

**ONE MEDICAL GROUP** · New York, NY · 2016-2019

**ADMINISTRATIVE ASSISTANT**

Managed operations at a busy primary care office, servicing 90 patients per day. Responsible for prioritizing patient care needs when triaging urgent care patients and preparation of patients for laboratory work. Supported patients with billing cases and the organization of the office.

### KEY ACCOMPLISHMENTS:

- Conducted early detection and continuity of care research targeting the health outcomes of potential cancer patients.

**ALBERT EINSTEIN COLLEGE OF MEDICINE** · Bronx, NY · 2015

**RESEARCH INTERN**

Used NVIVO to conduct literature reviews and maintained Endnotes database for the NYS AIDS Institute Expanded HIV Testing Comprehensive Dynamic Trial (EHT-CDT). Conducted epidemiology research surrounding the causes of HIV/AIDS in patients and the role that continuity of care holds in better health outcomes for HIV/AIDS patients. Researched policy incentives for Expanded HIV Testing in the Northeast region of the United States.

### KEY ACCOMPLISHMENTS:

- Developed a training program and conference surrounding patient-centered outcomes research (PCOR)
