○ Sunnydayz77

As a public health researcher-turned-software developer, I built my career around patient care and navigating challenging situations. I leverage my patient-centered approach in my software development, providing a detail-oriented, analytical, and positive perspective around the applications I build and the teams with which I collaborate.

Experience

GENERAL ASSEMBLY
Software Engineering Immersive | Engineering Fellow

New York, NY
2020

Learned full-stack web development in a 12-week full-time training program that exposed me to new frameworks.

- Created NutriMate, a nutritional information web application and food journal. Created with HTML, CSS, Vanilla JavaScript, and Nutrionix API. Hosted on Surge.
- Created BetterDoc, a web application that details provider information to the user based on name, location, insurances accepted, and provider specialty. Created with React Router, CSS, and Better Doctor API. Hosted on Netlify
- Created eSwap, a full-stack e-commerce site that allows users to swap items like on eBay. Created with full CRUD and full jwt authentication system. Back-end uses Express, Mongoose, and MongoDB and is deployed on Heroku. Front-end uses React Router and is deployed on Surge.
- Created The +Side, a full-stack positivity blog that alternates between personalized gratitude posts and good news articles. Created with full CRUD and full authentication. Back-end uses Ruby on Rails and is deployed on Heroku. Front-end uses React Router and is deployed on Surge

ONE MEDICAL GROUP
Administrative Assistant

New York, NY
2016 to 2019

- Front desk manager of day-to-day operations at a busy primary care office seeing 90 patients a day
- Taught working skills to new and current team members
- Prioritized patient care needs when triaging urgent care patients, preparing patients for laboratory work, and assisting in billing cases
- Conducted early detection and continuity of care research targeting the health outcomes of potential cancer patients

ALBERT EINSTEIN COLLEGE OF MEDICINE
Research Intern

Bronx, NY
2015

- Worked on a NYS AIDS Institute Expanded HIV Testing Comprehensive Dynamic Trial (EHT-CDT)
- Conducted a systematic review of literature using NVivo and maintained the database using Endnotes
- Helped study team integrate key literature findings into the Comparative Effectiveness Matrix tool
- Researched policy incentives for Expanded HIV Testing
- Developed a training program and conference surrounding patient-centered outcomes research (PCOR)

ALTARUM
Analyst Technician

Ann Arbor, MI
2012 to 2013

- Worked on Provider-Delivered Care Management(PDCM) project
- Obtained consent and patients' perspective on their chronic care treatment
- Traveled to 5 physician organizations to gain a comprehensive overview of the chronic care management of the state of Michigan
- Worked on several M-CEITA projects dealing with electronic health record implementation
